*“Track Drivers, Not Just Vehicles”*

Fleet Management solution that is incorporated with the Eco Driving Management improving the way your employees drive will have a considerable impact on your organization in terms of reducing costs such as fuel expenditure, insurance and wear and tear, whilst enhancing levels of operational efficiency, environmental responsibility and duty of care.

The system receives data on vehicle activity from a vehicle. The system evaluates driving quality based on GPS data and Eco Driving parameters, e.g. Harsh Driving, Speeding.....

In Utrack's Eco driving web app the interface for overall driving quality assessment for a definite period of time or a trip. Here you'll find the comparatives on all the vehicles.

## Fleet Pro Main Features:

### 1. DRIVER MANAGEMENT

Driver management incorporated with:

#### Driver Identification

Utrack solutions enables the user to choose between various number of driver identification methods. (Dallas, RFID Cards, Numeric Keypad etc.) The driver identification enables to eliminate unauthorised car use by connecting one of the above methods to the immobilizer. Moreover, the driver identification feature can be used to manage the drivers profile.

Managers can mobilize and immobilize the vehicle remotely using Utrack Software or via direct SMS command.

Immobilizer

Dallas Key

#### Driver Behavior

Utrack driver behavior summary provides information on drivers performances over the course of the desired time period. The driver behavior summary uses Galooli's algorithm to calculate the grade for each driver. The chart reflects both the top 5 drivers and the worst 5 worst drivers and vehicles.

Thus fleet managers can take action with the information provided to enhance their business productivity and safety of the vehicles.

### 3. MOBILE DIGITAL VIDEO RECORDING & TRACKING

In today's world of distracted driving, quite often it isn't your driver that causes the many accidents on the road today. It is usually the "other guy". In-cab DVR's allow you to provide video evidence to vindicate your driver, while also providing critical real-world training tools to change driver behaviors.

We offer multiple mobile digital video recording solutions to meet your specific needs including:

- Dashboard cameras with forward and cab facing cameras,
- MDVR's that record from every camera installed on the vehicle.
- A complete event triggering library and the ability to trigger your own events.

We also allow you to decide how to download your videos and events: SD Card, Wi-Fi, or Cellular options are available. With our digital recording solutions, you can track your vehicles, view live video feed from mobile devices, and protect your driver's and company from frivolous lawsuits.

## Benefits of the Fleet Pro:

### ✔ Identify the Driver of the Vehicle

Run reports by driver as well as by vehicle. Find out who got that speeding ticket, who was driving when a speeding alert was issued, who is misusing vehicles after hours and more.

### ✔ Supplement Timesheet Reports

Check your driver reports against timesheet reports to confirm the hours worked by each driver. This ensures the accuracy of your payroll.

### ✔ Verify the Official Start and End of the Day

Knowing what time each driver began and ended work on any given day helps reduce false overtime claims.

## Additional Features:

- ✔ Real Time Vehicle Tracking
- ✔ Trip Replay
- ✔ Speeding Alerts
- ✔ Harsh Driving Detection
- ✔ Maintenance/Warranty/License Reminders
- ✔ Service Log and Reminder
- ✔ On Board Buzzer to alert on violations
- ✔ Wide range of reports driver ranking
- ✔ Excessive Idling
- ✔ Geo Fencing
- ✔ Immobilizer/Gradual Stop
- ✔ Mileage Statistics
- ✔ Control Room Support
- ✔ Driver ID Management
- ✔ Access Customer Care Support Team
- ✔ Main Power Low/Disconnect/Connected Alert
